

```
1. #install.packages("here")
require(here)
dat_catrate= read.csv(here("data","catrate.csv"))
dat_delomys= read.csv(here("data","delomys.csv"))
dat_rope= read.csv(here("data","rope.csv"))
```

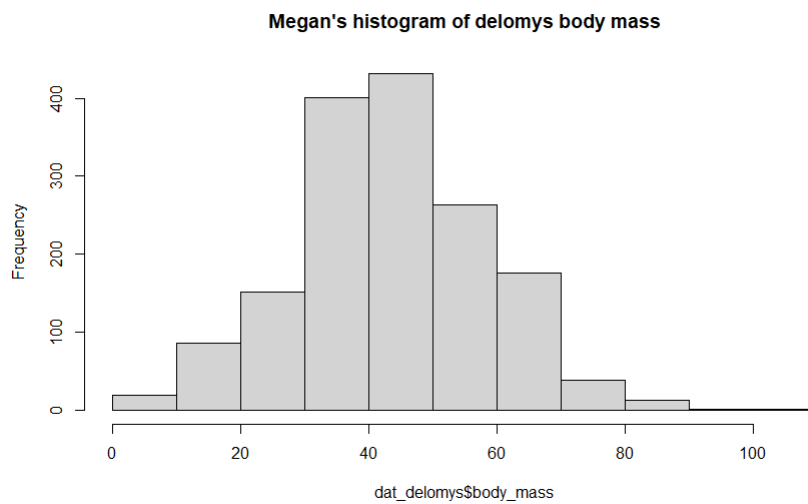

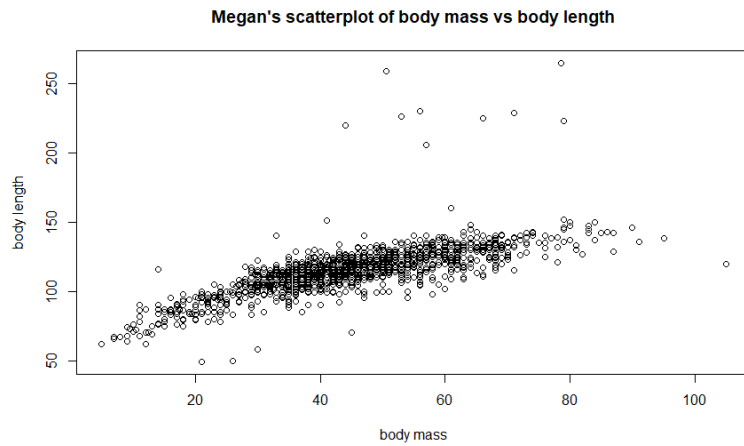

**Ollie's Plot of Delomys Body Mass vs. Body Length**

**'Ragib's Binomial Body Mass and Body Length'**

3. One question or difficulty: We found working in the time allotted to be a bit of a difficulty. We had to finish it at the beginning of class Thursday, which put us behind on the next in class assignment.
